

## High Performance Program (Admission by application acceptance only)

This program is specifically geared towards rapidly improving the skills of the most promising, most hard working and most dedicated students at our school. Through longer classes, increased homework and a more committed and competitive classroom environment, this group aims to achieve high results very quickly. In order to maintain the quality of the class, students are carefully selected on a range of criteria, and new applicants must meet these criteria as well. If you think your student is capable to join this group, please carefully consider the criteria below and contact us with your application.

### Admission Criteria:

1. Rating: The applicant's rating must be within the rating range of the top 5 students already in the group
2. Homework: Completion must consistently be 100%
3. Behaviour: Any behavioural issues will not be acceptable
4. Commitment: The applicant must consistently participate in the minimum number of monthly required tournaments

Please note that upon acceptance, failure to maintain these admission criteria may result in the student no longer being admissible to this group.
